**Whereas, the correct balance of revenues and expenditures in our state should never be a permanently settled issue because the economy, the population, and other important aspects of our state are continually changing; and**

**Whereas, Minnesota's elected representatives must bear the responsibility of adjusting the balance and revenues and expenditures in response to an informed and public debate; and**

**Whereas, a constitutionally locked-in formula severely limits that debate and unrealistically constrains the ability of future legislatures or local government officials to carry out their responsibility to react to unexpected circumstances and changing conditions;**

**Therefore, be it resolved that the \_\_\_\_\_ Party rejects any amendment to the Minnesota Constitution which restricts growth in government revenues to a formula.**
